

HYDROEYE AI

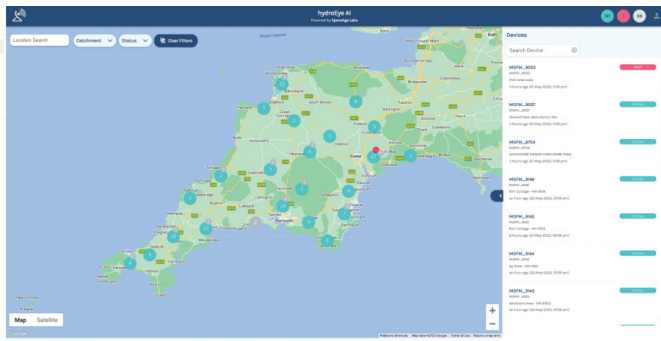

A SMART INTEGRATED WATER/WASTEWATER
NETWORK MANAGEMENT PLATFORM

HYDROEYE AI HELPS CUSTOMERS USE REAL-TIME SENSOR DATA AND AI BASED INSIGHTS TO MANAGE DISTRIBUTED WATER & WASTEWATER ASSETS SUCH AS SEWERS, DRAINS, MANHOLES, TANKERS, PUMPS AND DECENTRALIZED TREATMENT SKIDS

OVERVIEW

HydroEye AI is a user friendly platform powered by Space Age Labs. When used with the LIDoTT range of sensors, it provides an intuitive cloud based solution for a range of monitoring and measurement projects including:

- Sewer Level Monitoring
- AI based Blockage Prediction
- CSO monitoring
- Sewer Flow Monitoring
- I&I and Capacity studies
- Sewer Illegal discharge or water quality monitoring
- Sewer Network Asset digitization and management, geofencing to prevent underground asset damage from construction activities

GEOSPATIAL INTERFACE

User friendly and intuitive geospatial interface for sensor network data visualization, analytics and workflows for ease of operations and maintenance

REAL TIME VISUALISATION

One click quick site overview showing real-time visualization of time series data trend with rainfall data overlay, meta data summary and blockage / overflow alerts

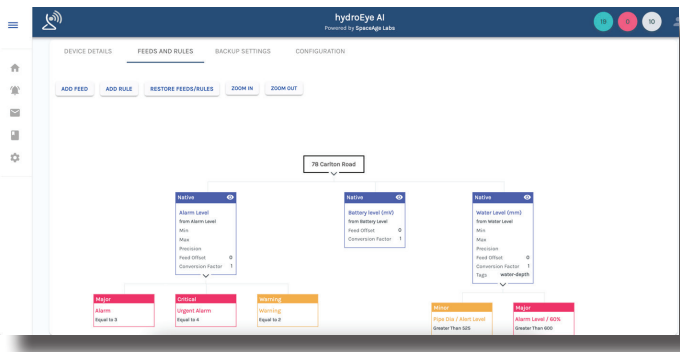

SITE SUMMARIES

Device / site specific summary page with site location, images, meta-data, alarms history, maintenance logs (picture and text), analytics, insights and data download

NO CODE PLATFORM

No code platform for device and user management – Easy to configure and interface multiple sensor types, multiple data feeds and setup rules and thresholds for alerts

Last Updated	Alias Name	Name	Value	Category	Description	Alert Status	Alarm Updates
22 May 2023, 08:40 am	MSFM_B660	Feed - Anomaly	3.897430729	Warning		Active since 6 days	Acknowledge Now View Alarm History
22 May 2023, 08:40 am	MSFM_B660	Feed - Anomaly	3.897430729	Warning		Active since 6 days	Acknowledge Now View Alarm History
22 May 2023, 03:03 pm	MSFM_B640	Feed - Blockage Alert	2	Warning		Active since 4 days	Acknowledge Now View Alarm History
22 May 2023, 03:03 pm	MSFM_B619 - Tidal Influence	Feed - Blockage Alert	2	Warning		Active since 11 days	Acknowledge Now View Alarm History
22 May 2023, 03:03 pm	MSFM_B630	Feed - Blockage Alert	2	Warning		Active since 54 days	Acknowledge Now View Alarm History

ALARM MANAGEMENT

Summary and historical logs of alarms for visualization and download.

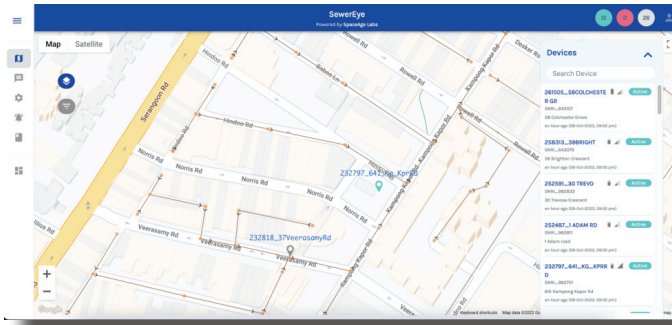

Easy to configure alert notifications – mobile app, SMS, email or WhatsApp

SUMMARY REPORTS

Customised scheduled reports for efficient management of sensors and operations

Device T1	Percentage Of Negative Values	T1	Device Name T1	Area T1	Pest Code T1	Location
B350	57.33		MSFM_B350	4	IQ34 4LD	Trigg Mill Abbot
B250	100.0		MSFM_B250	6	EK20 3PF	HELLAND SOUTH ZE
B229	15.38		MSFM_B229	3	PK21 9QF	OLAK COTT STREET, C
B327	13.46		MSFM_B327	2	PL15 7AS	O SPICE R WICKERSH
B661	30.74		MSFM_B661	3	PL6 7DG	44 HESSA BOBOROV
B664	7.83		MSFM_B664	4	TQ7 UL	VICTORIA ROAD, S
B225	8.54		MSFM_B225	1	TR27 6LQ	THE WHITE MILL HILL

9 Records found

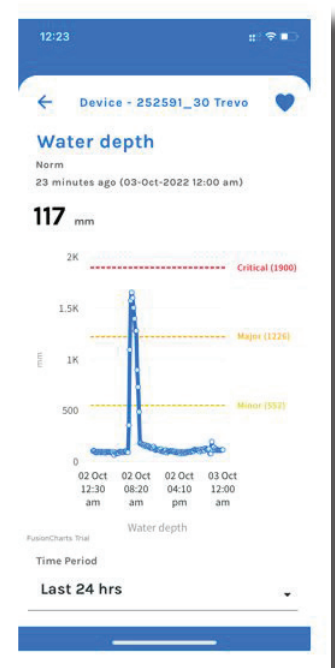

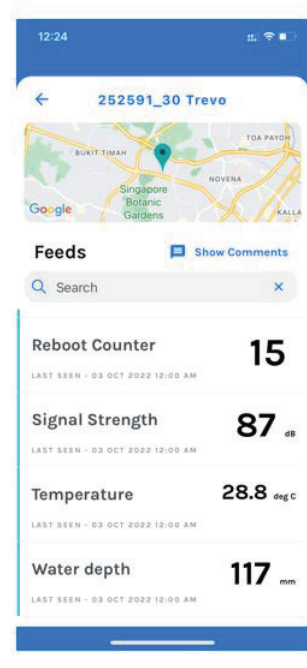

MAPPING TOOLS

Sewer Network overlay for source tracing, visualisation and analysis

MOBILE APP

Mobile app for 24/7 network visibility and anomaly notifications at finger tips for efficient operations anywhere anytime
